

Introducing and Applying New Code NLP

An Introduction to the Application of New Code NLP

New Code NLP is a radical simplification of Classic Code NLP. This course is designed for you as both an introduction and a strong base for self application and change through experiential learning, practice, discovery and application.

If you are curious about NLP or would like to really advance your NLP skills then this course is for you.

You will through experience and practice learn to apply the powerful New Code NLP change process to every day situations in context from problem situations to areas where you want to perform at your best

You will learn through experiencing

The Chain of Excellence

N-Step reframing

Walk with Grace and Power

Automatic state shunts to choice points

New Code games and Change Format

Benefits

Develop and utilise your unconscious mind
